Examination of Application #10/826,453

1. This communication is in response to the amendment received 4-March-2008. Claims 1-9 are pending in the application. Due to timing complications, the examiner respectfully presents this written response for consideration.

Claim Rejections under 35 U.S.C. § 112, 2nd Paragraph

2. Claims 4 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The examiner respectfully asks applicant to consider the grammatical correctness of the phrase "display of (a) potency", on line 2 of claims 4 and 8. It is respectfully noted that depending on which way the phrase is written, it could claim either a single potency or all potencies.

Allowed Claims

3. Claims 1-9 are deemed allowable over the prior art at this time, pending resolution of any rejections noted above, because the prior art does not specifically disclose combining the generation of ranked performance predictor attributes with marketing communications to be made to distinguished segments of customers.
